Weight w empty magazine	780 g

This pistols use BlowBack operation system distinguished with simplicity, reliability and dirt-resistance. The trigger and striker mechanisms are designed with the minimum number of parts to allow also field disassembly for emergency cleaning. It works in both the single- and double-action modes equipped with manual safety lock.

The slide is made of high quality CrNiMo steel, which guarantees a long durability for the firearm. The steel is heat processed to a hardness of 40 - 42 HRC and consequently carbonoxi-nitrided by technology QPQ to 750 HV. The metal container with slide rails is embedded in a plastic frame and is manufactured from high quality CrMo steel and reconditioned by QPQ technology to a surface hardness value of 700 HV. Hardness of the core material of the container is 30 HRC. Barrels are made of CrV steel and treated by carbonitriding to the depth of 0.5 mm. Hardness of the core material of the barrel is between 45 and 48 HRC. Surface hardness of the carbonitrided layer is from 52 to 54 HRC. The frame is made of high quality polyamide GF 30.

Pistol comes in plastic case with 2 magazines with capacity of 16 rounds, cleaning brush, Hex wrench for adjusting rear sight, warranty card, instruction manual and 4 interchangeable hand grips (optional).
